

I am a New Jersey resident who enjoys not being called by telemarketers. Prior to the Do Not Call list my family was receiving about 10 to 15 calls a day from different telemarketers. We did not ask for these calls and found it invasive to our lives. Please do not overturn the Do Not Call legislation, it is a great program. If I want to buy something from someone, I will go on the internet, a store, or call someone myself. I don't want them calling me.
